Other than as described in the preceding paragraph, which sets out the scope of our engagement, we did not perform assurance procedures on the remaining information included in the integrated reporting, and accordingly, we do not express a conclusion on this information. It was not part of our engagement to review product- or service-related information, references to external information sources, expert opinions and future-related statements in the Report.

Responsibility of the Company

The legal representatives of the Company are responsible for the preparation of the sustainability information in accordance with the Reporting Criteria. This responsibility includes in particular the selection and use of appropriate methods for sustainability reporting, the collection and compilation of information and the making of appropriate assumptions or, where appropriate, the making of appropriate estimates. Furthermore, the legal representatives are responsible for necessary internal controls to enable the preparation of a sustainability report that is free of material - intentional or unintentional - erroneous information.

Verification methodology and procedures performed

The verification engagement has been planned and performed in accordance with the verification methodology developed by the TÜV SÜD Group, which is based upon the ISAE 3000, and ISO 17029. The applied level of assurance was "limited assurance". Because the level of assurance obtained in a limited assurance, the engagement is lower than in a reasonable assurance engagement, the procedures the verification team performs in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement. A limited assurance engagement consists of making inquiries, primarily of persons responsible for the preparation of the Sustainability information and applying analytical and other limited assurance procedures.

The verification was based on a systematic and evidence-based assurance process limited as stated above. The selection of assurance procedures is subject to the auditor's own judgment. The procedures included amongst others:

- Inquiries of personnel who are responsible for the stakeholder engagement und materiality analysis to understand the reporting boundaries.
- Evaluation of the design and implementation of the systems and processes for compiling, analysing, and aggregating sustainability information as well as for internal controls
- Inquiries of company's representatives responsible for collecting, preparing and consolidating sustainability information and performing internal controls
- Analytical procedures and inspection of sustainability information as reported at group level by all locations.
- Assessment of local data collection and management procedures, along with control mechanisms, through offsite verification and onsite survey at selected multiple sites: Below sites were selected for onsite/offsite review:

Sl. No.	Company Name	Site Address
1	eClerx Services Limited	Onsite Review 4th Floor, Quadron Business Park, Block 01, Wing A - LG, 1st, 2nd and 3rd and Wing A & B, Hinjawadi Phase 2 Rd, Hinjawadi Rajiv Pune, Maharashtra, India
2		Offsite Review Consolidated off site data verification of remaining sites including corporate and registered office

Conclusion

On the basis of the assessment procedures carried out from 01-07-2026 to 28-07-2026, TÜV SÜD has not become aware of any facts that lead to the conclusion that the selected sustainability information has not been prepared, in all material aspects, in reference to the Reporting Criteria.

Limitations

The assurance process was subject to the following limitations:

The subject matter information covered by the engagement are described in the "scope of the engagement". Assurance of further information included in the integrated reporting was not performed. Accordingly, TÜV SÜD do not express a conclusion on this information.

Financial data were only considered to the extent to check the compliance with the economic indicators provided by the GRI Standards and were drawn directly from independently audited financial accounts. TÜV SÜD did not perform any further assurance procedures on data, which were subject of the annual financial audit.

The assurance scope excluded forward-looking statements, product- or service-related information, external information sources and expert opinions.

Use of this Statement

The Company must reproduce the TÜV SÜD statement and possible attachments in full and without omissions, changes, or additions.

This statement is by the scope of the engagement solely intended to inform the Company as to the results of the mandated assessment. TÜV SÜD has not considered the interest of any other party in the selected sustainability information, this assurance report or the conclusions TÜV SÜD has reached. Therefore, nothing in the engagement or this statement provides third parties with any rights or claims whatsoever.

Independence and competence of the verifier
